

Drawn to Numbers: Empowering children to understand maths

25 November 1 -5pm

We look forward to welcoming you to this virtual conference.

This conference is your opportunity to explore how visual materials and creative strategies can make a real difference in the classroom. Designed specifically for primary and secondary school educators, we will focus on using imagery, drawings, and student-created visuals to deepen mathematical understanding and reduce anxiety around numbers.

This session has been allocated 3.5 hour CPD.

Time	Speaker	Topic
13:00 - 13:10	Amanda Lynch BDA Dyscalculia Course Leader	Introduction.
13:10 - 14:10	Dr. Sally Bamber Senior Lecturer, University of Chester	Creating dyslexia and dyscalculia friendly mathematics classrooms.
